

The Hutton Club

Friday 2nd June

Prof. Gerard Roe

Faculty of Earth and Space Sciences, University of Washington

Step into my office...

Hey, look everyone! It's a towering symbol of political ambition... and there's some bloke standing in front of it!

'Rocks, rivers, and rain: the roles of climate, erosion, and tectonics in mountain belt dynamics'

Old Library, Geography, 4 pm

Tea and scones shall be served in the commons dining room
