AGI awards 1990 – 2000

1990	Past chair's	Dorothy Pugh	Work with the membership committee
1991	Industry	Hoskyns	Implementation of PIMMS at Shropshire County Council
	Journalist of the year	Nick Nuttall	'Shaking up the Old Town Halls' appeared in the Times
	Student of the year	Sally Bishop	Weighted digital terrain models to create land suitability models
	Technology	Action Information Management	Integration of low cost technologies
1992	GIS Users	English Nature	Implementing a GIS to monitor sites of special scientific interest
	Industry	ED-Line Partnership	Creation of the Boundaries of census enumeration districts data set
	Journalist of the year	Tim Wright	GIS Article in Which Computing
	Journalist of the year	David Dobson	GIS Article in Which Computing
	Past chair's	Walter Smith	Services to the GIS community
	Student of the year	John Baxendall	The travelling salesman problem (MSc Thesis)
1993	Journalist of the year	Tim Wright	'Target Markets' appeared in Which Computer Magazine
	Past chair's	Alistair Keddie	AGI92 Conference Chairman
	Student of the year	Jonathan Makin	An object-oriented simulation of a complex geographic system using GIS
	Student of the year	Joe Aguilar Manjarrez	Construction of a GIS for Tabasco State Mexico
	Technological Progress	Hutchison Paging (UK)	Implementing a GIS and geographic referencing system in the development of a real-time paging network.
1994	Journalist of the year	Claire Gooding	Software at Work supplement to the Financial Times
	Past chair's	John Leonard	Liaison between AGI & EC in forming Eurogi in 1993
	Student of the year	David Yarwood	Cartographic modelling in network space (MSc thesis)
	Technological Progress	Southern Water Ltd & Procis Software Ltd	Mobile GIS within a Water Utility
1995	Journalist of the year	David Butcher	GIS Special supplement in Planning Week 30.03.95
	Past chair's	David R Green	Significant and sustained contribution to the AGI
	Student of the year – GIS Application	Dr Victor Mesev	Urban land use modelling from classified satellite imagery
	Student of the year – Technical achievement	Terence P Dawson	Towards a spatial thesaurus – an expert system approach to fuzzy specification of areas in GIS. (MPhil)
	Technological Progress	Gloucester County Council	Large and Complex corporate GIS implementation

1996	AGI/ESRI Prize for schools	St Dunstan's Community School	
	Journalist of the year	Not Awarded	
	Local Authority	Forth Valley GIS	Range of applications and the service level provided to clients
	Past chair's	Alan Oliver	Services to GI Community, e.g. IGGI
	Student of the year – Postgraduate	Dr Jo Wood	PhD research on characterisation of digital elevation models
	Student of the year – Undergraduate	Sandy Twynholm	Golf Club Capability Testing using GPS and GIS
	Technological Progress	Landmark Information Group	Innovative solution combining many different data sets
1997	Journalist of the year	Robert Barr	Dangling Segment & Opinion columns in the magazines GIS Europe and Mapping Awareness
	Local Government	Bristol City Council	NLIS
	Past chair's	Chris Corbin	Unstinting contribution to the AGI
	President's Award	Prof. David Rhind	Ten years of outstanding achievement in the field of geographic information (1987 – 1997)
	Student of the year – Postgraduate	Jennifer Pickerill	Applied remote sensing
	Student of the year –Undergraduate	Neil Kaye	Climatic Warming and the potential for grapevine cultivation in England and Wales
	Technological Progress	Coal Authority	Land and Property Gazetteer
1998	Journalist of the year	Carolyn Fry	For editing GISeurope and Geoinformation Africa
	Local Government	Powys County Council	Innovative programme to bring GIS into all the counties high schools
	Past chair's	Robert Barr	Significant contribution to raising the profile of the AGI
	Student of the year	David O'Sullivan	Using GIS to create travel time isochronous for the Glasgow area
	Technological Progress	The Centre for Advanced Spatial Analysis	Use of digital mapping and 3-dimensional photography to create virtual towns
1999	Central Government	Coal Authority	The Mining Reports and Surface Damage System (MRSDS)
	Journalist of the year	Debora MacKenzie	Article in New Scientist on Hurricane Mitch
	Local Government	London Borough of Barking	Implementation of LLPG
	Past chair's	David Unwin	For spearheading the AGI's Continuing Professional Development (CPD) initiative
	Student of the year	Sanjay Rana	Extraction of surface topology from digital elevation models
	Technological Progress	Coal Authority	The Mining Reports and Surface Damage System (MRSDS)
2000	Central Government	Forest Enterprise	Forest Management System
	Journalist of the year	Max Glaskin	On Location
	Local Government	Medway Council	Implementation of a Corporate Internet GIS
	Past chair's	Gayle Gander	Significant contributions to the AGI during 1999 resulting in the Launch of the CPD scheme, Regional Groups in Scotland and Wales
	Student of the year	Ian Oldfield	Logical Spatial Units for data sharing under the Crime and Disorder Act
	Technological Progress	EDINA	Web-based service to access maps and data
